Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner initially called Applicant's Representative to inquire about the Remarks filed on October 23, 2006, apparently in response to the Office Action mailed on April 21, 2006. The Remarks did not include any amendments or arguments traversing the rejections made in the Office Action, but only stated that a continuation would be filed "in lieu of a formal response." Applicant's Representative informed the Examiner that the Remarks filed were intended to be a miscellaneous communication and not a response to the Office Action. Applicant's Representative gave permission to the Examiner to abandon the instant case in light of the filing of application 11/552,111, which has been indicated as a continuation to the instant case. Furthermore, Applicant's Representative requested the following comment to be included in this interview summary, reiterating the comment mentioned in the Remarks filed: In abandoning this case, Applicants stated that they have not dedicated or abandoned any subject matter claimed herein, and moreover have not acquiesced to any rejections and/or objections made by the Patent Office; Applicants also stated that they reserve the right to pursue prosecution of any presently excluded claim embodiments in future continuation and/or divisional applications.
